

**“IT BASICALLY  
REPLACES A MINI  
FACELIFT.”  
-DR. RYAN TAVAKOLI**

RESTORE THE YOUTHFUL CONTOURS OF YOUR  
FACE WITHOUT FILLERS OR SURGERY.

- + Shrink unwanted jowls
- + Tighten neck
- + Soften deep wrinkles
- + Tighten loose skin
- + Refine enlarged pores

## HOW IT WORKS:

As we age, pockets of fat begin to fall into undesirable places. Those fat deposits cause eye bags and sagging around the mouth and jawline. Our focused radio frequency (RF) technology allows us to safely target and shrink specific pockets of fat under the skin. The RF energy restores the skin's health and reduces wrinkles by stimulating the production of volumetric collagen and elastin.

## LONG-TERM RESULTS

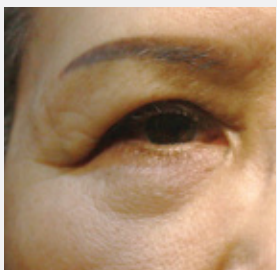

These targeted radio frequency (RF) treatments deliver long-term results.
