

Fact Sheet

Parisian Peel®

MEDICAL MICRODERMABRASION

Parisian Peel® Fact Sheet

Product Description:

The Parisian Peel® microdermabrasion skin renewal process reduces or eliminates superficial skin blemishes resulting from injury, aging or prolonged exposure to the sun. The non-chemical, non-surgical Parisian Peel® process consists of a device that gently abrades the skin surface to remove the dead cells and uncover the smoother, softer layer beneath.

Product Attributes:

- Causes minimal discomfort to the patient
- Produces no side effects
- Does not require anesthesia or recovery time
- Can be performed quickly (in about 30 minutes)
- Patients can return immediately to their daily activities
- Works for all colors of skin
- More affordable than laser, surgery or other methods

Product Application:

Parisian Peel® skin renewal treatments are typically administered in an office or clinic by dermatologists, plastic and reconstructive surgeons, and related professionals as an alternative to surgery, chemical peels and other methods of skin rejuvenation.

Treatable Conditions (Indications):

- Sun-damaged skin
- Fine lines and wrinkles
- "Age spots"
- Superficial pigmentation
- Enlarged or oily pores
- Blackheads and whiteheads
- Acne Scars

Non-treatable Conditions (Contraindications):

- Malignant cutaneous tumors
- Adjunctive use with Accutane®
- Certain keratoses
- Evolving dermatosis

How the Products Works:

The precision handpiece of the Parisian Peel® microdermabrasion system is used to direct a stream of very fine crystals and mild suction exactly where needed on the patient's skin. The gentle abrasive action of the crystals combines with the suction to remove the dead outer layer of the skin while bringing the smoother, softer under layer of skin to the surface. This action works equally effectively on all colors of skin.

Treatment Schedule:

A Parisian Peel® treatment is administered in the physician's office in about 30 minutes. Five to ten treatments may be required to achieve the best results, depending on the skin type and condition.

More Information:

The Parisian Peel® process has been used successfully for over five years in the United States by physicians and other skin care professionals. Aesthetic Technologies of Golden, Colorado is the exclusive manufacturer of Parisian Peel® brand skin renewal products.
